

Water Fluency Program 2021 Sponsorship Opportunity

Water Education Colorado is a 501c3 nonprofit providing policy-neutral news and informational resources, engaging learning experiences, and empowering leadership programs. We work statewide to ensure Coloradans are knowledgeable about key water issues and equipped to make smart decisions for a sustainable water future.

Water Fluency

The Water Fluency program provides participants with a practical understanding of Colorado water resource issues and the related implications to local decision-making processes. Participants learn through four in-person classroom days with combined instruction and discussion, guided tours of infrastructure and project sites, reading assignments and online coursework. Participants leave equipped with new knowledge and a network of peers to help create lasting, positive change in their communities. The class is capped at 35.

Audience

Primary audiences include local and state elected officials, special district staff and board members, local government and business leaders, agency and utility staff, agricultural and nonprofit leaders, and university professors.

2021 PROGRAM

Dates TBD

May or June

Steamboat
Springs

July or Sept.

Craig

*Participants
attend both
sessions

WEco will follow
state COVID-19
health orders and
