Introduction

Water Education Colorado’s Water Leaders Program aims to positively impact the Colorado water profession by creating a pipeline of dedicated, effective water leaders across diverse fields who exemplify the four quadrants of emotional intelligence: self-awareness, self-management, social awareness, and social management.

Program admission is based on competitive criteria in order to maximize each participant’s experience and ensure program diversity. Please note that while more than one applicant from the same organization may apply, only one participant per employer will be admitted in the same year. There are no organizations who maintain a designated seat for one of their employees in the class. Rather, all applicants are considered on their own merits.

Before completing this application, Water Education Colorado advises applicants to review program information available on our website at this link.

Please note that you may have trouble saving your answers or returning to past answers while completing the online application in Survey Monkey. We strongly recommend that you download the application questions here and prepare your answers offline first.

Please keep answers concise and adhere to the word limit recommendations listed next to each question.
